

## Hillsong "All About You"

Visit "[All About You](#)" on [MotoLyrics.com](#)

Hear our praises  
Hear your people sing  
Hear our hearts cry  
Your love is everything

And all will hear this shout  
As the nations turn to you  
And this will be your anthem

'cause we're all about you  
And the world you promise  
And all we have will give you praise  
'cause we're all about you  
And the world can't stop us  
Living your way, always

Let our hearts break as we praise your name  
Let the earth shake  
This is the sound of faith

And the walls will fall down  
And religion will break  
And the nations will hear this shout  
Can you hear the sound of faith?

All the walls are falling down  
As all the nations praise  
And all the world will hear this shout  
Can you hear the sound of faith?
