

## Hillsong

### "Rise"

Visit "[Rise](#)" on [MotoLyrics.com](https://MotoLyrics.com)

All the earth come alive  
Lift your eyes to the morning  
Let our hearts beat again  
With a lifeblood that never fails  
Your love it will never fail

Breaking down the divide in a holy collision  
The divine in disguise  
Took the cross for our sin and shame  
Our God You will never fail

See the lost in return  
Swing the doors ever wider  
See the tide as it turns  
Love and mercy is on the rise  
As the world folds into Your light  
All creation will see Your light

Hear the sound of freedom rise  
As our song breaks the silence  
Echoing the angel cry  
Let us lift up Your holy Name  
Hereafter to sing Your praise  
Forever and ever

We will hold, we will love  
We will fall in surrender  
We will rise, we will run  
We will live to declare Your Name  
Forever to bring You praise  
Forever we'll lift up Your Name

The universe on its knees  
See the stars in surrender  
God above kings and queens  
Every idol will bend and break  
But our God You will never fail  
Forever and ever

We will hold, we will love  
We will fall in surrender

We will rise, we will run  
We will live to declare Your Name  
Forever to bring You praise  
Jesus, Jesus  
We will hold, we will love  
We will fall in surrender  
We will rise, we will run  
We will live to declare Your Name  
Forever to bring You praise  
Forever we'll lift up Your Name

Swing the doors wider  
Sound the praise louder  
All our hearts cry out  
For the glory of Your Name  
Our God You will never fail

Lift the Name higher  
Shine the light brighter  
All the earth cry out  
For the glory of Your Name  
Our God You will never fail

We will hold, we will love  
We will fall in surrender  
We will rise, we will run  
We will live to declare Your Name  
Forever to bring You praise

Swing the doors wider  
Sound the praise louder  
All our hearts cry out  
For the glory of Your Name  
Our God You will never fail  
Jesus, Jesus  
Lift the Name higher  
Shine the light brighter  
All the earth cry out  
For the glory of Your Name  
Our God You will never fail  
Forever we'll lift up Your Name
