Visit "[All To Show](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We are a history making generation  
For all that's true  
Jesus the life that I live is your reflection  
It's all for You

And unto Your name  
All glory and praise for who You are

It's all to show the world who You are to me  
All to show the world I'm free in the life You gave

I see a world of people who need a savior  
And I know Your heart  
Take me to the nations, take me further  
Let me be Your light

And unto Your name  
All glory and praise for who You are

It's all to show the world who You are to me  
All to show the world I'm free in the life You gave

It's all to show the world who You are to me  
All to show the world I'm free in the life You gave to me  
In the life You gave

It's all to show the world what You've done in me  
It's all to show the world who You are to me  
It's all to show the world what You've done in me  
It's all to show the world who You are to me

My hope, my strength, my beginning and end  
Still closer than my closest friend  
My hope, my strength, my beginning and end  
Still closer than my closest friend, my closest friend

It's all to show the world who You are to me  
All to show the world I'm free in the life You gave to me  
In the life You gave, in the life You gave to me  
In the life You gave
