"Arise"

Explorers and soldiers
(?)
Searching and fighting
To learn, to realize

Straight through our soul
With invisible thread
The pieces undone
Are whole now instead

The fight we're in
Has already been won

Arise
For the kingdom has come
Arise
For the kingdom has come

Your story was made of
Beauty and soul
We're closer to heaven
Than we'll ever know

Woven in time
(?)
To breathe and create
A sacred thing

The fight we're in
Has already been won

Arise
For the kingdom has come
Arise
For the kingdom has come
[repeat]
