Love unchanging  
God Your mercy never fades  
And I'm surrounded  
By Your compassion and Your grace

Your love  
Brighter than the sun  
More beautiful than words could ever say  
This endless light  
Shining over all  
It leads me to Your glory everlasting

In Your kindness  
For the broken and the lost  
You gave Your only Son  
To bear my shame upon the cross

Your love  
Brighter than the sun  
More beautiful than words could ever say  
This endless light  
Shining over all  
It leads me to Your glory everlasting

Your love amazing  
Fills my heart and I sing out  
There is none like You  
There is nothing like  
Your love amazing  
Fills my heart and I sing out  
There is none like You  
There is nothing like Your love  
There is nothing like Your love
