("Blueprint 2" by Jay-Z beat)

Introducing, Q D-A K-I-D  
Knucklegang legendary I'm sorta like Ali  
Hustle game tight I'm like God to these fiends  
Custom Range white, stuntin' wit' a hard lean  
Money's exactly what the Red Dot Squad is seein'  
Brand new Benz but the McClaren's what I oughta be in  
But until things pop for me  
I'ma cook raw do whatever I gotsta eat  
I'm workin' hard lookin' forward to my album release  
Five mic classic four and a half at least  
I'm tryin' to move big units, pop numbers  
Push a H4 navy blue drop Hummer  
D-K, all day, from the ghetto sidewalk to the project  
hallways  
And it don't matter what coast I'm on  
I got toast in palm ready to ghost someone  
Stretched out on a hosptial bed his eye closed  
There's no coming back shots to the head the box  
closed  
Black custom ??? ?? ???  
I'll fuck with models and tamper with they young  
throats  
JD the hatin' is on, dudes is mad cuz he doin it again  
he's on your arm  
Or could it be the way we ball out I blow fitty on Don  
Give money back to the streets to keep the kids warm  
You thought it was over but look we here  
Another SoSo and Free For All world premiere  
Brooklyn, one nine, get it clear  
SoSo Def we runnin' it this year
