You missed the winter
And it followed you back home
Where sun kissed the crimson
Footsteps in the melting snow

We are doing our best
To disown the golden me
By these acts of cruelty
In the name of beauty to be free

The acoustic funeral for love in limbo
We're dancing with tags on our toes
I save my last breath for your window
To write you this song
For the acoustic funeral

On the verge of the vow to kill
All reason locked in that door
To a nightmare within a nightmare
We are bound to adore

Let the pleasure in the shape
Of a heart lie 'til we
Have finally confirmed
All fears to be so real
(Be so real)

The acoustic funeral for love in limbo
We're dancing with tags on our toes
I save my last breath for your window
To write you this song
For the acoustic funeral

Underneath the ice so thin
I am turning blue
(Love's turning blue)

The one last thing I know to be real
Is the shadow of you
Killing love with a kiss

The acoustic funeral for love in limbo

We're dancing with tags on our toes
I save my last breath for your window
To write you this song

The acoustic funeral for love in limbo
We're dancing with tags on our toes
I save my last breath for your window
To write you this song
For the acoustic funeral

Let's relearn to fall
To fear acoustic funeral
Killing love with a kiss
