Divided we stand in light of a frozen sun
Cursing the gods we have become

We steal the fire from the sacred heart
And bleed the wine unholy
We fall in love with the serpent's song
And feel nothing

In the nightside of Eden, we're born again, dead
Forever we are, forever we've been
Forever we'll be crucified to a dream
In the nightside of Eden

Deranged, we're tearing away the pedals of desire
Learning the mathematics of evil by heart

We deceive ourselves to start a war
Within the realm of senses
And descend to the circle number four
Where we are nothing

In the nightside of Eden, we're born again, dead
Forever we are, forever we've been
Forever we'll be crucified to a dream
In the nightside of Eden

In the nightside of Eden, we're born again, dead
Forever we are, forever we've been
Forever we'll be crucified to a dream
In the nightside of eden

Forever we are, forever we've been
Forever we'll be crucified to a dream
In the nightside of eden

Forever we are, forever we've been
Forever we'll be crucified to a dream
