"Scared To Death"

Visit "[Scared To Death](#)" on MotoLyrics.com

In the biblical sense and sensibility
let me know you
I'll kiss that smile off your face
just say when
(just say when)

I'm not afraid to say I love you
Any more than I used to be
Babe, I am scared to death to fall in love

All these pick up lines from hell
Icebreakers infernal
From a heart so black and blue
Only for you
(just say when again)

Im not afraid to say I love you anymore then
I used to babe
I am scared to death
I am scared to death to fall in love with you

With you

Im not afraid to say I love you
anymore then I used to babe
I am scared to death
I am scared to death to fall in love

I am not afraid to admit I adore you
anymore than I was before babe
I am scared to death
I am scared to death to fall in love
With you
With you
with you
Im scared to death
Im scared to death
Im scared to death

I am scared to death and you're sweet like poison
