Your world is coming to its end
You don't have to be afraid
I'm here for you

Save your happiness for tomorrow
And today we'll drown in your tears
A drop of your blood tastes like wine today

Come closer my dear
It is just the beginning of the end
Yes, I'm here for you

Save your happiness for tomorrow
And today we'll drown in your tears
A drop of your blood tastes like wine today
Today

Because I love you so, oh
And I'm here for you

Save your happiness for tomorrow
And today we'll drown in your tears
A drop of your blood tastes like life today

Save your happiness for tomorrow
And today we'll drown in your tears, oh
And your blood it tastes like life
Today

Oh won't you let it rain?
Oh, let it rain
So won't you let it rain?
Oh, oh let it rain
Oh, won't you let it rain?
