Never saw the chemistry that was there with you and
me
Its been a long time coming

Well come on!!

It's freaking me out, that I didn't see
That you're so damn hot girl, It's just crazy
And without a doubt I still can't believe
That you were right there in front of me

Never saw the chemistry that was there with you and
me
It's been a long time coming

Whooaaaa!

Just waiting on an angel to take me out of my hell
I'm falling for you
Whooaaaa
Just dropping out of thin air
You came out of nowhere right out of the blue
When heaven sent you

Night after night, when I didn't sleep
But that was before you lay beside me
When all of my demons were dancing with me
I'm glad you came down 'cause I was in too deep

Never saw the chemistry that was there with you and
me
It's been a long time coming
Whooooaaaa!

Just waiting on an angel to take me out of my hell
I'm falling for you
Whooaaaa
Just dropping out of thin air
You came out of nowhere right out of the blue
When heaven sent you

Yeah, yeah

Whoaaaaa

Just waiting on an angel to take me out of my hell

IÂ'm falling for you

Whoaaaaa

Just DROPPING out of thin air

You came out of nowhere right out of the blue

Whoaaaaa

Just waiting on an angel to take me out of my hell

IÂ'm falling for you

Whoaaaaa

Just dropping out of thin air

You came out of nowhere right out of the blue

Whoaaaaa

Ladada, ladada, ladada

Right out of the blue

Ladada, ladada, ladada

When heaven sent you

Ladada, ladada, ladada

Right out of the blue

Ladada, ladada, ladada~

When heaven sent you
