We can't survive on the outside

There's work for us on the inside

So when a stranger asks you a question

Never answer, never confide

We've got something to hide

Don't get caught

Don't get caught in the crossfire

Don't get tangled in the web

Don't get caught in the crossfire

Don't reveal the plan inside your head

We can go underground

We can talk in private

But you don't know me in a crowd

Wait for the signal

It's so silent this vow

Don't get caught

Don't get caught in the crossfire

Don't get tangled in the web

Don't get caught in the crossfire

Don't reveal the plan inside your head

We can beat any lie-detector

We can make our own smoke-screen

We have to be the voice

That must be heard

But never seen

Don't get caught

Don't get caught in the crossfire

Don't get tangled in the web

Don't get caught in the crossfire

Don't reveal the plan inside your head

Don't get caught...

Guitars: Steve Farris

Drums: Michael Witzel

Keys and vocals: Rupert Hine
