Visit "[Friends And Lovers](#)" on MotoLyrics.com

And now friends and lovers,  
To all of you who understand,  
But never hear, from our silence  
A word for you.  
In a world of changes,  
Where he who gives is passed around,  
Save a smile for your own passing  
To lead you on.  
I'll try friend and lover,  
To let you fly your own sky.  
With my blessing from my silence  
My love for you.
