And I don't need sunshine
I don't need anyone else to feel fine
I just need to see your face
And let my voice speak your name
And I don't need presents or praise
I don't need miracles or fame
I just need to hold you close
To hear you whisper
That you feel the same
Let it rain
I feel heaven on earth when we're together
Let it rain
If I lost you I would search forever
So let it rain
And I don't need fancy invitations
Or complicated explanations
I just need to see your face
And let my voice speak your name
Let it rain
I feel heaven on earth when we're together
Let it rain

If I lost you I would search forever

So let it rain

And I don't need sunshine

I don't need anyone else to feel fine

I just need to see your face

And let my voice speak your name

Let it rain

I feel heaven on earth when we're together

Let it rain

If I lost you I would search forever

So let it rain

Guitars: Jamie West-Oram

Drums: Michael Witzel

Electric piano, keys, harmonica, percussion and vocals:
Rupert Hine
