"Surface Tension"

Visit "[Surface Tension](#)" on MotoLyrics.com

While you wait

There's always something

Looming low

Will it show

Your heart is thumping

Halloween without a pumpkin

Halloween

Breeding in the stream

The programmes come the same

Why not the dream

Can I keep on running

Can I keep on running

While you watch

There's always something

Taking sides

Find a clue

In any language

Halloween without a pumpkin

Halloween

Sleeping still they look

No meaner than their eyes

Trick or treat or lies
Can I keep on running
Can I keep on running
It's only surface tension
But break it and we sink
Reach out for the master's mask
The wound is deeper than you think
While you sleep
There could be something
Closing in
You don't know
Could this be London
Halloween without a pumpkin
Halloween
Breathing on the phone
The city creaks alone
They know you're home
Can I keep on running
Can I keep on running
It's only surface tension
But break it and we sink
Reach out for the master's mask
The wound is deeper than you think
