You need a heart to live

How they do it is a mystery
just like your present to me

You need a heart to live

Love is a sound
wishing you were around

earthquakes for to see
these words of prophesy
this message to the world
these words of prophesy

love is a sound

wishing you were around

you need a heart to live at all

earthquakes for to see
these words of prophesy
this message to the world
these words of prophesy

love is a sound
wishing you were around

you need a heart to live at all
you need a heart to live
