I saw the ceiling a little quicker then we could've said  
But stood back up and tried getting with you again  
It's simple things that tend to get me out of hand  
When all along we need to keep it open  
So take a ride aside my dreams  
You'll understand what they can do to me  
Break me down  
This is why I keep you around

{Chorus}

We said that we'd take it slow  
But we were already home  
I was home with the lights down  
You were home with your heart out

Start again with things that shouldn't even begin  
And time will tell if the lock is really opened  
It's do or die I need you playing on my side  
The cards are down and the bets too big to be mine  
Mondays don't always agree  
Some days you just have to breathe in  
I need you tonight yeah  
I need you tonight

Stick with me I'm trying  
I'm trying to let you go
