Can you feel our gravity?  
Can you gravitate to me?  
Can you feel the gravity?  
Right now!  
Can you feel me closing in counting down satellites?  
Can you see the galaxies brighten when we're aligned?  
And every star that navigates,  
Will guide me all the way to you  
I've been orbiting but you could pull me through  
Can you feel our gravity?  
Can you gravitate to me?  
Can you feel the gravity?  
Right now  
Can you feel our energy,  
As it pulls you into me?  
Can you gravitate to me?  
Do you lie awake scanning the stars at night?  
Are you holding out hope for a sign of life?  
Do constellations carry you?  
Do galaxies come into view?  
Do you wait for me?  
Cause I could wait for you!  
Can you feel our gravity?  
Can you gravitate to me?  
Do you feel the gravity?  
Right now  
Can you feel our energy,  
As it pulls you into me?  
Can you gravitate to me?  
Right now!  
Don't!  
Don't pass me by  
If we let go  
Our worlds collide  
Our worlds collide  
Can you feel our gravity?  
Can you gravitate to me?  
Can you feel our gravity?  
Right now  
Can you feel our energy?  
Could it pull you into me?  
Can you feel our gravity?

Right now
