Don't you wanna see it,
Come and I will show you,
Everything that's going on, ah huh,
Don't you wanna feel it,
I just need to know,
Every place you want to go.

Toss and turn in a dream,
Let me be a beauty queen,
I wanna stay in my dream.

Beauty queen, young and keen,
You're the finest I have seen,
No need to wake up,
This is not a dream.

Don't you wanna see it,
Come and I will show you,
Everything that's going on, ah huh,
Don't you wanna feel it,
I just need to know,
Every place you want to go.

Up and down like a tie,
Hit and run, hit'n'hide,
I wanna go for a ride.

Hit'n'hide on a ride,
Come along or step aside,
I wanna tell ya,
Honey, this is right.

Don't you wanna see it,
Come and I will show you,
Everything that's going on, ah huh,
Don't you wanna feel it,
I just need to know,
Every place you want to go.

Can you feel it,
Oh uh oh

I wanna stay in my dream,
I wanna be a beauty queen.

Can you feel it,
Oh uh oh

Don't you wanna see it,
Come and I will show you,
Everything that's going on, ah huh,
Don't you wanna feel it,
I just need to know,
Every place you want to go.

Up and down like a tie,
Hit and run, hit'n'hide,
I wanna go for a ride.

Hit'n'hide on a ride,
Come along or step aside,
I wanna tell ya,
Honey, this is right.

Don't you wanna see it,
Come and I will show you,
Everything that's going on, ah huh,
Don't you wanna feel it,
I just need to know,
Every place you want to go.

Don't you wanna see it,
Come and I will show you,
Everything that's going on,
Don't you wanna feel it,
I just need to know,
Every place you want to go.
