Don't you wanna see it,  
Come and I will show you,  
Everything that's going on, ah huh,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.

Toss and turn in a dream,  
Let me be a beauty queen,  
I wanna stay in my dream.

Beauty queen, young and keen,  
You're the finest I have seen,  
No need to wake up,  
This is not a dream.

Don't you wanna see it,  
Come and I will show you,  
Everything that's going on, ah huh,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.

Up and down like a tie,  
Hit and run, hit'n'hide,  
I wanna go for a ride.

Hit'n'hide on a ride,  
Come along or step aside,  
I wanna tell ya,  
Honey, this is right.

Don't you wanna see it,  
Come and I will show you,  
Everything that's going on, ah huh,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.

Can you feel it,  
Oh uh oh

I wanna stay in my dream,  
I wanna be a beauty queen.

Can you feel it,  
Oh uh oh

Don't you wanna see it,  
Come and I will show you,  
Everything that's going on, ah huh,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.

Up and down like a tie,  
Hit and run, hit'n'hide,  
I wanna go for a ride.

Hit'n'hide on a ride,  
Come along or step aside,  
I wanna tell ya,  
Honey, this is right.

Don't you wanna see it,  
Come and I will show you,  
Everything that's going on, ah huh,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.

Don't you wanna see it,  
Come and I will show you,  
Everything that's going on,  
Don't you wanna feel it,  
I just need to know,  
Every place you want to go.
