[Verse One - Princess Superstar]

I got King Kong playin Ping-Pong with a big bong  
In my brainstorm and the pains warm  
Swarm like smog in Hong Kong I know it's wrong  
But I kill me softly with my own song  
Some magic wand could make it be ok kill the decay  
Like a cake and a lay  
But today- it wasn't a good day  
And you can't touch me I've already faded, I faded  
away

[Hook - Beth Orton]

Sometimes I wear nothing on the outside  
Because there's too much on the inside  
The bouncer wouldn't let me in  
He said my emotions were too close to the skin  
And at this point a touch would feel like a cut

[Verse Two - Princess Superstar]

Turn me off, just turn it off  
I'm off base off face when I think I lace I cough mace  
I could go on for days but then I always complain  
A waste of breath and a name  
I aim and I maim and I came here to choose  
But when I look around me, compare me and lose  
Payin dues feelin blues got no clues  
And it's all news to you, huh

I keep it so undercover I could be a mattress  
And it matches the patchy ashes my brain crashes  
This address, I hope I move from it from summit to  
plummet  
I covet release and it's comin  
Untouchable it ain't discussible  
I'm disgustable in a vestibule must a pulled a  
musclefull in my head

I bet I get better but better remember I waited forever  
Fuck Princess I'm talkin 'bout Concetta you never met  
her  
It kind of appears my ego account's in arrears

Fear, tore up and teared with wet tears  
I feel weird and I wish it was easy to ask you to come  
here  
Sometimes I'm happy when I see the sun one day I'll  
say I've won  
And if you think this song is done there's Untouchable  
Part 1
