Things like other people have  
Not just dreams that's all gone bad  
She's had all the dreamin' she could stand.

Chased our dreams endlessly  
Through it all she stood by me  
More than that Lord she was such a friend.  
Dreamin's all I had to give  
She needed more to live  
She's had all the dreamin' she could stand.

She's had all the dreamin' she could stand  
She wants something real she can hold in her hand  
Things like other people have  
(Not just dreams that's all gone bad.)  
She's had all the dreamin' she could stand.

--- Instrumental ---

He was always good to me  
Good as anyone could be  
I was always part of all his plans  
Each time his world would crash and burn  
He never had one place to turn  
He's had all the dreamin' he could stand

She's had all the dreamin' she could stand  
She wants something real she can hold in her hand  
Things like other people have  
(Not just dreams that's all gone bad.)  
She's had all the dreamin' she could stand.

Things like other people have  
Not just dreams that's all gone bad  
She's had all the dreamin' she could stand...
