# **"Congratulations"**

Visit "[Congratulations](#)" on [MotoLyrics.com](https://MotoLyrics.com)

If you see me walking round in circles if you see me  
staring at the sky  
If you think I still miss you since you left me  
congratulations you're absolutely right  
If you think life's been empty since you left me  
If you think that I cry for you at night  
If you think I take you back in a minute congratulations  
you're absolutely right  
[ steel ]  
If you think that I try to call your number if you think I  
drive by your house at night  
If you think I still love you like I used to congratulations  
you're absolutely right  
If you think life's been empty...
