Hurt me as much as you want to  
If tears make you happy then I'll cry  
Do anything that you want to  
But don't ever tell me goodbye

Break my heart if that brings pleasure  
And take the twinkle from my eyes  
Do anything that you want to  
But don't ever tell me goodbye

Don't tell me goodbye whatever you do  
For I just couldn't live if I ever lost you  
Tell our friends that it's all over  
Say that the fault was all mine

Do anything that you want to  
But don't ever tell me goodbye  
Oh, don't ever tell me goodbye
