# **"Honey Let's Fall In Love"**

Visit "[Honey Let's Fall In Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Everybody else is doing it so honey, let's do it too  
It's been going on since time began  
They say that once you try it you'll never get enough  
If everybody else is doing it honey, let's fall in love.

Adam and Eve both did it and honey,  
Don't you forget Romeo also did it with Juliet  
My mama and my daddy both did it  
And for me that's good enough.  
If everybody else is doing it honey, let's fall in love

If everybody's falling in love then that's gotta be good  
If everybody's doing it honey, don't you think we  
should  
The whole wide world is doing it, it's kickin' up quite a  
fuss  
If everybody else is doing it honey, let's fall in love.

--- Instrumental ---

(There's no respectations on it there's no set time or  
place  
For the young and old it's all the same  
And once old Cupid shoo shoo he just can't get enough  
If everybody else is doing it honey, let's fall in love)

If everybody's falling in love then that's gotta be good  
If everybody's doing it honey, don't you think we  
should  
The whole wide world is doing it, it's kickin' up quite a  
fuss  
If everybody else is doing it honey, let's fall in love.

The whole world is doing it so honey let's fall in love...
