"House Down The Block"

Visit "[House Down The Block](#)" on MotoLyrics.com

The house my family lives in just down the block
Many times I passed there but I never stopped
I go on all alone a wishin' I could be in that house down
the block with my family
When we meet upon the street I just bow my head
They don't know how often I wish that I was dead
To our name I brought the shame but still I long to be
In that house down the block with my family
[steel - piano - fiddle]
When Gabriel blows his trumpet and time will be no
more
Then mem'ries fade my daddy's faith I'll walk up to the
door
The tears that fall won't start at all and God will let me
be
In that house down the block with my family
