Leave me a lock of your golden hair
Leave a memory that we once shared
Leave me the twinkle in your eye
Leave me something to remember you by.

Leave me a kiss as you walk out the door
For you know and I know you won't be back no more
Leave me a way as you say goodbye
Leave me something to remember you by.

--- Instrumental ---

Leave me a kiss as you walk out the door
For you know and I know you won't be back no more
Leave me a way as you say goodbye
Leave me something to remember you by.
