Let the world keep on a turnin' let the fire keep on a
burnin'
Let our love keep on a growin' to the sky
Let our ship of love keep sailin' keep the storm clouds
far away
And hand in hand we'll walk together side by side.

Please don't pay me attention to someone that they
should mention
As they saw me in the arms of Mary Jane
Oh, it's plain they're only jealous and their hearts are
filled with malice
Their intention is to only bring us pain.

Let the world keep on a turnin' let the fire keep on a
burnin'
Let our love keep on a growin' to the sky
Let our ship of love keep sailin' keep the storm clouds
far away
And hand in hand we'll walk together side by side.

--- Instrumental ---

When they try to cause us trouble we'll politely pop their
pubble
By ignoring any gossip they might start
So let the north wind keep a blowin'
We'll be safe cause we'll be a knowin'
That our love is safely locked inside our hearts.

Let the world keep on a turnin' let the fire keep on a
burnin'
Let our love keep on a growin' to the sky
Let our ship of love keep sailin' keep the storm clouds
far away
And hand in hand we'll walk together side by side.

Hand in hand we'll walk together side by side.
Hand in hand we'll walk together side by side...
