The flame of love was burning high  
We vowed to never let it die  
But now you're growing tired of me  
So let's agree to disagree.

Let's agree to disagree  
There's nothing left for you and me  
You won't be happy till you're free  
So let's agree to disagree.

--- Instrumental ---

I'll miss you but I'll live somehow  
In fact I miss you even now  
But you don't want no part of me  
So let's agree to disagree.

Let's agree to disagree  
There's nothing left for you and me  
You won't be happy till you're free  
So let's agree to disagree...
