Buck Owens & Rose Maddox

Mental cruelty, that's what I heard her say  
Mental cruelty to the judge that day  
I sat there in silence so she could be free  
And listened to her lying words mental cruelty.

Your Honor, since our marriage  
My life's not been the same  
Why, I'm missing out on all the fun  
And he's the one to blame.

There's never any excitement now  
The way there used to be  
And sharing his way of life  
Is mental cruelty, mental cruelty.

Divorce has been granted  
For many different things  
Even when there's not a reason  
And when no one can be blamed.

With only two little words  
Why she's on her merry way  
Yes, all the woman has to claim  
Is mental cruelty, mental cruelty...
