This old heart has been around  
It's been up and it's been down  
It's been walked on all over town  
But it still looks for love to come around.

It's got memories of the past  
Of love affairs that didn't last  
It's been stood up by every girl in town  
But it still looks for love to come around.

--- Instrumental ---

Are you the next one to come along  
To give it hope and then do it wrong  
Or will it be true love that last  
And wipe out all the tears from the past.

Well, This old heart has been around  
It's been up and it's been down  
It's been walked on all over town  
But it still looks for love to come around.

Oh yes, it still looks for love to come around...
