"Within My Loving Arms"

Come into my loving arms and forget it
Run into my loving arms you won't regret it
I will be your rock and keep you safe from harm
If you will stay with me within my loving arms.

The sunshine of your life just call to say goodbye
It hit you like a bow from the blue
Your big plans for the future have all gone up in smoke
Lost and lonely girl what will you do.

Just come into my loving arms and forget it
Run into my loving arms you won't regret it
I will be your rock and keep you safe from harm
If you will stay with me within my loving arms.

If you will stay with me within my loving arms...
