I had a tension, I had a ten  
I was a better, honey so I did it again  
Thought my intentions were better  
I tried to put mind over matter  
I lost my edge on things when I lost my head

Hey that's what they say  
Don't you know they ain't never gonna help you  
anyway?  
And it's a get together, tear it apart

Gave my middle finger a brand new start  
I got a greeting, can't say what it's all about  
But my middle finger is gonna carry it out

I got attention, I had a pen  
I made history, honey and God, please, do it again  
No chance I'm gonna do it again  
'Cause if you missed it the first [Incomprehensible]

Nine to ten that you will again  
And we're back at the end  
Back at the end all over again

They say, hey that's what they say  
Don't you know they ain't never gonna but I feel okay?  
And it's a get together to tear it apart  
Gave my middle finger a brand new start

I got a greeting, can't say what it's all about  
But my middle finger is gonna carry it out  
Get together to tear it apart

Gave my middle finger a brand new start  
I got a greeting, can't say what it's all about  
But my middle finger is gonna carry it out
