"Automatic Schmuck"

Born only a month ago yet I'm (already) fully grown
from head to toe.
Lots of metal, lots of grease and put together piece by
piece.
To support a system that uses me....but the day is here
and they're gonna see.
I'm on a mission cause now I've had it.
I watch their system and spit right at it.
I was born and plated a schmuck they created.
I'll explode I'll erode yeah I'll break you fucking code
cause I'm an automatic schmuck.
With a tendency to rock.
Deprived of mind but yet I know - I'm a metallic man
about to blow.
Time to set the record straight.

Time to let out all my hate.
I'm on a mission an metallic man with the intention to
expose the plan.
I was born and plated a schmuck they created.
I'll explode I'll erode yeah I'll break you fucking code
cause I'm an automatic schmuck.
With a tendency to rock.
I'm on a mission a metallic goof - it takes a man of
steal to reveal the truth.
I was born and plated a schmuck they created.
I'll explode I'll erode yeah I'll break you fucking code
cause I'm an automatic schmuck.
With a tendency to rock.
