Mad man he operated, he opened up went in and
seperated.
he mad a mess - tried to restore but it was all in vain.
That's what I get when the holding th knife answers to
the name.
Mad mad mad.
Mad man he operated, and what I before used to have
in mind has now evaporated.
Mad man woke me up and said he'd fixed the leak
but now I can't walk and I believe I stu..stu..stutter when
I speak.

Mad mad mad.
I get the feeling that I've been cutdown - cutdown.
Yeah I get the feeling that I've been cutdown - cutdown.
In a sort of scientific way.
Mad man he operatedf, he opened up went in and
seperated.
He made a mess - tried to restore but it was all in vain.
That's what I get when the one holding the knife
answers to the name.....
