[based on Stephen King's The Dark Tower Book series]

The man in black fled across the desert  
And the Gunslinger followed

On the quest for his lost soul  
Through fields and worlds  
Through Tull and Allie he walked  
Obsessed by cruelty and logic  
Powerful enough to destroy

Obsessed-was not fate. Unembraced  
Crawling thought, I paused (I paused)

Sleep on my friend and dream  
For thousands of years to come  
Wake up in a different time  
At Golgotha of the Otherworld (the Otherworld)

A knight of a Different kind  
Baptized with the blood of his master  
Leaving the ruins of the Gilead  
For the heart of all words  
With burning eyes he looks at the sun trying to follow  
the brilliance  
The brilliance that shows his destination's point

Worlds are sick and that's the truth  
The Guardians are dead, the knowledge a wasteland  
For the people of this dune (people of this dune)

Oh, Knight enter me from the door in the back of my  
mind  
Draw me into your Quest to heal  
The suns in the heart of the Rose  
Make your destination mine

Blain is Pain and that's the truth  
We all serve the Tower  
For the Tower is the truth

Oh, my soul within me is burning

That's why I find the soul amusing  
He refused to be alone  
It seems that the man beside him was the crowd to him

Draw everyone of the many who are one  
With the power of all, the Tower is getting closer  
Follow the path of the Beam the way of the Tower  
Merge with God and heal-the riddle is mine to solve
