[Don Rich]

Well we just passed county line be home about a half
past nine
See the friends that I once knew I gotta lotta much to
do
Have a piece of apple pie see the happy tear in her eye
And I never more go away I'm coming back home to
stay

Well I really been kicked around lived it up and I've
lived it down
Roped the grapes up in Buffalo been trailin' down to
Tupelo
But before all my runnin' bound happiness I just never
found
Made up my mind last Saturday that I'm coming back
home to stay
Well we just passed...

[steel]

When I left with a lotta dreams I was really gonna
spread my wings
Show the homefolks a thing or two show 'em what a
country boy could do
But it didn't take long to see the city life wasn't life for
me
But come naturally that's okay cause I'm a coming back
home to stay
Well we just passed...
I never more go away cause I'm coming back home to
stay
