[ Don Rich ]

For two long weeks you're goin' to Kansas City  
And I'm sure I'm gonna miss you while you're gone  
Well this ol' town will seem to die without you  
But it will sure come to life when you come home  
So take care of you for me in Kansas City and honey  
call me every now and then  
So take care of you for me in Kansas City  
Cause I'll miss you till you're in my arms again

Well honey watch those Kansas City dandys  
And don't let them fool you with their charms  
Have a lot of fun but remember that I love you  
And I'm waiting here with my two empty arms  
So take care of you...  
Well I've never ever been to Kansas City  
But I've heard stories about the girl that's gone  
So if you just have to go to Kansas City  
Take your time gettin' there but you just hurry home  
Oh take care of you...  
Oh I'll miss you till you're in my arms again
