[Don Rich]

There's a gonna be some singin' there's a gonna be a
lot of well-thingin'

Bells are a gonna be ringin' cause my baby's comin'
home

I'm gonna tell all the world about it go up on the roof
and shout it

Cause there ain't no doubt about it oh my baby's comin'
home

I just gotta call her bout an hour ago

And that's a little darlin' since she love me so

She's gonna come in on the one o'clock plane she's
never never ever gonna leave again

I'm a happy can't you tell ol' brother I'm gonna hold her
in my arms for ever

And she'll never leave again no never oh my baby's
comin' home

Oh my baby's comin' home

[piano - steel]

We'll gonna have a celebration cause I'll meet her at
the station

There'll never be no more waitin' oh my baby's comin'
home

For a minute that I get her she'll never ever more be
lonely

She'll always be my one and only oh my baby's comin'
home

I just gotta call her...

I'm all through bein' alone cause my baby's comin'
home
