[Don Rich]

I wait for you to call me but you won't I keep hoping you
come by but you don't

You just keep me hurtin' all the time

And if you make me much bluer I'll go out of my mind

I'll go out of my mind completely it's true

If you don't start to love me the way that I love you

You just keep me hurtin' all the time

And if you make me much bluer I'll go out of my mind

[steel]

You smile every time you make me cry you're happy
cause my eyes are never dry

You just use me anyway anytime and if you make me
much bluer I'll go out of my mind

I'll go out of my mind...
