Here I got the final blow shattering  
Your brain crushing down to the ground  
Can you feel the pain  
Time is here for you to die  
This my command  
Hack off your face & rip out your heart  
Body slaying land

Bodies lay upon the earth  
Smell the rotting flesh  
Feel the daggers pierce your skin  
Now there's nothing left  
Time is near Oh so dear  
This is my command  
Time is here, I'm gonna kill you all

Here I go the final blow  
Shattering your brain crushing down to the ground  
Can you feel the pain  
Time is near, o so dear  
This is my command  
Hack off your face & rip out  
Your heart body slaying land
