"Spit As An Offense"

Do you fear every moment?
Now you fear everything
You are afraid these days
'cause I'm your living disgrace
Do you hear what I'm saying?
Now you hear all my scorn
Demons dance and laugh
Sweet feelings, revenge will come
I spit at you, you're nothing in life
Don't look at me, you're nothing in life
You're so weak, you're nothing in life
I celebrate, you're nothing in life
During years hate's been growing
Wanna get what I do?
You can't hesitate
I'm here to break your fate
Don't dare to look at me
Don't do it anymore
Just listen to my laugh
This will end, as you thought
