

Hobson's Choice "Absolution"

Visit "[Absolution](#)" on MotoLyrics.com

We are HCF, the old dayz, future dreams killaz
Driven by the anger of wide spread chaos, absolutely
See the nation's insecurity, HCF severely reigning
Deterioration of moral values, sickness and pain

Deceived, led into chaos, proved I'm not afraid
To accept what's got to be, change, revolutionize
False resurrections, rotten image of misbeliefs
Crisis never ends, elimination of common sense
We are the modern slaves, your fear is their strength
Hatred feeds your faith, obey the masters
Unlearn what you know, alone against the world
And there is a point where your mind and your heart
break apart

Stand up, stand up, use your brains, fight the system,
fight back
Set it off, set it off, use the facts, understand, mass
affect
Stand up, stand up, use your brains, fight the system,
fight back
Set it off, set it off, use the facts, understand, mass
affect

No hope may save us now, only the knowledge, your
instincts and will to survive
