What to believe in  
Whom to believe today  
What to believe in  
Tell me the truth  
Tell me the truth

Different roads we walk  
Different roads - collapse and failure you self-  
destructor half human being  
Impulsive greed, greed for more, warning nightmares,  
too blind to see  
Different worlds - pushing further, forcing change,  
under siege  
Science, thoughts, inner peace, answers lie within the  
reach of those who try  
To rule with their own lives

Impaled disgust, jackals torn among themselves  
Frustration overtakes, they have to be enslaved  
Maintain control, embrace the weapons by which we  
talk  
Reshape the world, different roads we walk -  
different roads.

I refuse to worship your money.  
I refuse to be one of a million.  
I simply refuse to be inside your circle of trust.  
My life has value.

Different roads we walk  
Maintain control!
