One scream awakes the beast
your plea will be denied
I can smell all those entrails
they call me to start the feast

Nightmares will be raping your souls
welcome where human warmth is ice
Nightmares feeding from your fears
welcome to see your world collides

I'm the envoy to cure your fantasies
I'm the envoy to redeem all your sins

I'm the savior of your lewdnesses
I'm your savior, don't you wanna understand?

You contort under my feet

your blood has splashed my eyes
you still scream, I want you to resist
but you only want to rest in peace

I enjoy your screams, I kill and my hate exists
I can rape your dreams, I kill and my soul exists

You're there where angels don't sing
you lie where compassion's a myth
nightmares will be raping your souls
welcome where human warmth is ice
Nightmares feeding from your fears
welcome to see your world collides
