Gonna learn to fly  
Land in Spain  
Then I took a bus and I took a train  
Got down South  
Met this man  
Mario the guitar in his hand  
He don't like music  
From the U.S.  
Bite his nails  
Practice scales  
Metronome plays all night and day  
I go out for tea and the flamenco came

But go  
Well it's always night  
Well it's always night  
Yeah I'll go to Rome  
Rooftop slums  
Dead beneath pipes and gypsy drums  
Shade of my cash and drop my class  
Rent out a piano behind stained glass

And go  
Well it's always night  
Green laser light

Down streets say they're selling hash  
Just make em grass

Robbery yeah they're selling out fast  
Old folks say that they're safe as day Were the facist  
ones  
Yeah but I don't know

Well I got the money but the money got me  
It was all the same in Spain  
Well you loved me but you still lost me  
Treated me such away-ay-ay  
I'll make the money but the money made me  
It was all the same in spain  
Well I bought the drugs and the drugs bought me  
It's no running away-ay-ay

Discotheques don't start till 3  
So I'll mess with the ? in the alpine streets  
- She's said I always used to be so clean  
Love's no fun  
Say what d'ya mean  
- She was looting me without looting herself  
Getting me bored with the things she felt  
Said this music sucks  
I'm down on my luck  
Can't get no sleep  
And then load the trucks  
So Monday  
Tuesday  
Friday  
Yeah 3 o'clock rolled around  
So we went downtown  
- Hit the stall but we only play underground  
I walked in and I just hit the ceiling  
Everyone here's in love with the feeling

Go  
Live a life at night  
Oh a life of might  
And so  
I know the motto goes  
I will know when I see it

I got the money but the money got me  
It was all the same in spain  
Well you loved me but you still lost me  
Cheated me such away-ay-ay  
I'll make the money but the money made me  
It was all the same in spain  
Well I bought the drugs and the drugs bought me  
It's no running away-ay-ay

Well it's just my life  
Cause the time was right  
It was so much fun  
With a clean cut job  
With the hire cops  
Knew my day would come  
Oh please  
Don't convince me  
Already see  
It's just my life  
Cause the time was right  
And it was so much fun

I wanna go home

A 29 year old  
Next patriot from  
America's South  
In light of the background  
The queen of the designer crowds  
Must have been the only time  
She got turned on  
Ha

I got the money but the money got me  
It was all the same in spain  
Well you loved me but you still lost me  
Cheated me such away-ay-ay  
I'll make the money but the money made me  
It was all the same in spain  
Well I bought the drugs and the drugs bought me  
It's no running away-ay-ay

I messed up  
My life  
Cause the time was right  
- It was so much fun  
- It was a clean cut job  
With the hire cops  
Knew my day would come  
Oh even please  
Don't convince me  
You know I already see  
Cause the time was right  
And it was so much fun  
Cause the time was right  
It was so much fun  
- It was a clean cut job  
- With the hire cops  
Knew my day would come  
Oh even please  
Don't convince me  
You know I already
