I dont know what to do.
I dont know what to do.
I dont know what to do.
I dont know what to do.
All the times its worked.
All the times ive saw.
All the times ive left.

Well you know ive got to learn to lose for a while.
Well you know ive got to learn to lose for a while.
Well i guess ive got to learn you used to be mine.
Well you know ive got to learn learn learn
you used to be mine.
And how i wish, to turn my troubles to gold.

And i long to be done with all these nightmare miles.
They got behind my shoes, and they got behind my
style.
Im goin down the river fast times
see all the towns ive worked.
See all the towns ive known.
See all the towns ive craved.

Well you know ive got to learn to lose for a while.
Well you know ive got to learn to lose for a while.
Well i guess ive got to learn you used to be mine.
Well you know ive got to learn learn learn
you used to be mine
And how i wish, to turn my toubles to gold.

I dont know what to do.

I dont know what to do.
I dont know what to do.
I dont know what to do.

Last time i lost control of
My confidence it took me
Five years to get it back
And took my good chances from me
And Ive made some good arrangements
Ive made some bad arrangements

Dont know which one came first
I promise that its reverce.
Now how close did you get to the end of the line?

Well you know ive got to learn to lose for a while.
Well you know ive got to learn to lose for a while.
Well you guess ive got to learn you used to be mine.
Well you know youve got to learn learn learn learn
learn.

You know ive got to learn to lose for a while.
Well you know ive got to learn to lose for a while.
And how i wish, to turn my troubles to gold.

You know ive got to learn.
You know youve got to learn.
You know ive got to learn to lose.
