Chorus:

It ain't no big deal

Just leave it alone

Ain't no big deal

It ain't no big deal

Just let it go

Ain't no big deal

Though you may think

That you know

Everything about me

You truly don't

You got the body

I got the hands

Now it's time

To break it down

Take the time

To fool around

Chorus x2

Well you know

It ain't no big deal

It ain't no big deal

Thought you knew

Who I was

You were wrong, oh

Never could get enough

And now I'm gone

Lights strobe across the room

But all you seem to think of is you

And

Chorus x4 'til fade
