(Larson / Hoffsten)
I'm tired of it
Listening to it
You whine all night long
So sad and boring
Keep looking for a
Good reason you can blame things on
Didn't know you could fall so low
Like crying to Barry Manilow
Things can't really be as badas you say
Chorus:
Old shakespear
He made it clear
The sun does not always shine
Still got a shot
To be or not
Cause it's not the end of time
A bad karma
Or the evil type
Is not a good excuse
It's not genetic
It's not athletic
It's all in your attitude
Don't you have anything to do
Then dig for people who pity you
Pull your self together...and move on
Chorus
