Can't ignore or hide away  
Can't escape from the things that line our way  
Take it leave it brake it  
Anyway you can't get back to yesterday  
All I want, all I wanna do  
You better listen from now on  
Stop what's going on stop whats going wrong  
You better listen from now on  
Confidence, coincidence call it a sin  
Its just like people say  
Tomorrow's here so open up your eyes  
Never hesitate  
All I want, all I wanna do  
Is make you listen from now on  
Sleeping in the dark dreaming of the stars  
Keep one to wish on from now on, Oh... oh...

It makes me wanna give you everything  
Pick you up and take you home again  
Hold you tight and think that now is then  
All I want to do, all I want to do  
You better listen from now on

Open arms and crying eyes  
Say hello or wave goodbye  
Which one are you thinking of?

Oh... Oh...  
All I wanna do, all I wanna do  
Is make you listen, from now on  
Stop whats going on  
Stop whats going wrong from now on

It's all I wanna do, all I wanna say  
You better listen from now on  
Sleeping in the dark, dreaming of the stars  
Keep one to wish on from now on  
All I wanna do all I wanna say  
Is everything I feel from now on
